DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of claims 20-39 in the Election of December 8, 2003 is acknowledged.

Since claims 40-41 have been cancelled in the Election of December 8, 2003, then elected claims 20-39 are the only claims pending in the application.

Allowable Subject Matter

Claims 20-39 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not teach or suggest a method of determining the suitability of transparent molded polymer articles to produce colored transparent molded polymer articles by treating them with a fluorescent material, irradiating them in order to find homogenous and non-homogeneous fluorescence and then sorting them according to the homogeneity of their fluorescence.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Mueller is cited to show a filtering element including a fluorescent material. Taumi et al and Neefe are both cited to show methods of marking a lens using a fluorescent material. None of the cited prior art teaches the method of determining the suitability of coloring the molded transparent article by the homogeneity of the fluorescence of the fluorescent material in the molded transparent article.
